EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the specification:

On page 1 of the specification, after the title, the paragraph added by the preliminary amendment dated October 27, 2003 has been amended as follows:

"This application is a divisional application of U.S. Patent Application No. 09/664,013, filed September 19, 2000, now U.S. Patent 6,676,169, which claims priority to U.S. Provisional Patent Application No. 60/155,328, filed September 22, 1999, which is incorporated by reference in its entirety."

2. The following is an examiner's statement of reasons for allowance: None of the prior art of record taught or suggested that one skilled in the art would have made a connection for a composite pipe which includes the steps of attaching a connector having at least one liner trap and at least one trap to a liner portion of a segment of composite pipe formed from a plurality of filament fibers wound around a liner where a plurality of filament fibers were wound across the connector and compressed over the at least one trap. While the prior art taught the compression of wound fibers over a trap, the prior art failed to teach or suggest that the connectors therein were attached to a

liner portion of segment of composite pipe having a plurality of filament fibers wound around a liner wherein the fibers forming the outer surface of the segment of composite pipe lack a microscopic waviness as addressed by applicant in the response. This is particularly true of claims 1-12. With respect to claim 27-34, the prior art additionally failed to teach that one skilled in the art would have applied tension to the filament fibers using the specified tensioning ring.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jeff H. Aftergut whose telephone number is 571-272-1212. The examiner can normally be reached on Monday-Friday 7:15-345 pm.
